Dear Sir,

LETTER OF APPEAL FOR ASSISTANCE FROM RIVERS STATE GOVERNMENT.

For the last 30 years, The Technicians' Community of Anyama and Gambia Street have lived and worked in this Area without molestation from any Community, Government or individuals. We have carried out our different trades and professions ardently, sweating and earning our daily bread.

This land was allocated to technicians from Abonnema Wharf Road by the Government of Rivers State and subsequently gazetted in November 1st 1978.

On the 19th day of November 2008, at about 2.30pm some officials from a Government Ministry came and looked around the Area. Then on the 20th of November 2008 at 9.15am they came back and started demolishing. As a result of this more than 9,000 [nine thousand inhabitants of the area are homeless, jobless and without any hope of rehabilitation]. We have been living like refugees.

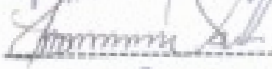

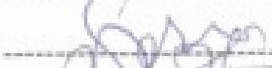

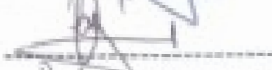

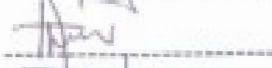

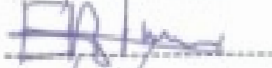

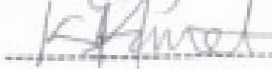

As if this was not enough, they came back and set the place ablaze making it impossible for us to recover some of our customers vehicles, tools and properties. Up till now, no allocation of relocation has been made for us.

We are now using this medium to appeal to this body to assist us in asking for our right of rehabilitation.

Thanks.

Signed
